Everything is fine

Needed more teaching skills

N/A

No cap

More examples

Our teachers is friendly to us they help us overcome over learning difficulties.

Teachers should often used LCD projector, Multimedia etc, for better understanding of teaching and can be easy for students to learn and Should discussed about the assignment of

the students with every students personally and correct their mistakes

It was overall a wonderful experience

Used microphone while communicating

Some what good

Very good i like it

You should make the class more interesting so that students will have interest to attend lecture.

Teachers should engage in extracurricular activities so that they motivate students to be more active and learn much better than expected timing.. Activities should be there to make learning more effective and understandable.

Good 👍👍👍

Suggestion:

- 1) To explain in a simple manner as possible.
- 2) To be punctual and provide information if taking class is not possible
- 3) To create a good and happy environment while lecturing.

I couldn't agree more of what the amazing teachers taught us and I just have to thank them for what they did.

No suggestions

Awareness program....

I have no problem with the old teacher but the only problem we have are the officiate of backup teacher. If we are lucky we find the backup teacher teaching is easy to understand what they are teaching but if we are unlucky ? May the creator help us

There must also be different types of activities inorder for a student to stay mentally n physically active

I prefer teaching should be with the modern ear example we should make used the project which are in the classroom , teaching with slight and be more advanced

Okie naisu taki Zane

Neutral

Helps us in teaching n learning

I don't know

I want to suggest that some of the teachers should provide material for the students especially for us English honours we were so hard to study .Also at the same time that English is very tough so we need some teachers to explain well because they were so fast in explanation that we could not even understand the novel or the story of the chapters.

According to my observation everything is great but it'll be fun to have more group study activities to improve the excitement and learning skills in each and everyone of us.

Approach to the teacher

It is all excellent

Making refreshments when the students are tired or feeling sleepy in class like some jokes

Every teachers have their own ways of teaching - Only suggestion i'd like to give is.,doesn't matter however the way is...Whatever they teach should be understandable and applicable in future growth.

By giving suitable example to makes us understand

Make teaching a two way interaction...

Teachers may approach the students in a more friendly way in order to maintain good relationship so that the students doesn't feel hesitant to seek help.

Good institute with the best teacher who help the students to overcome many challenges as in many ways

1. More qualified/experienced teachers should be assigned in the right kind of subject and classes.
2. Teachers should not only be discussing/lecturing about only our studies and syllabus. But also should motivate us, entertain us and act as a role model.
3. Extracurricular activities should be present more in our college, to make us more motivated.
4. Unexperienced teachers should not be encouraged to come and teach us. Specifiacly a teacher who is used to teaching PG students is not experienced to come and teach us UG students. Lectures are not understood clearly.

I could understand that understanding a subject can be very easy for the teachers but I hope that they can also deliver their explanations to us in such a way that we as students can also understand and love the subject like they do.

Not that good

It is great but according to me it will be great if we will have more study activities in the classroom or outdoor study activities example study tour, study camp. Through this it will improve the excitement to learn more and express ourself

Very Good

Improve teaching skills

Very crowded, rooms very congested.

Maybe if rooms were larger ,I could sit comfortably and concentrate.

The overall teaching is good

If there was a projector too in the room no.206 so that the teachers can use during classes to inculcate better form of education. Thank you

I have no idea

Encourage cooperative learning

The overall teaching is good

The overall teaching learning experience in my institution is good

Modern teaching methods for the students

I just wanted teachers to explain the meaning or the definition in a simple term or words before they they talk about a particular topics

The teachers should be teaching us to the level that all of us will understand

No comments .

No comments.....

Help students prepare Entrance exam and interview (like CUET).

Help students prepare Entrance exams and Interview (like CUET)

Thankyou all the teachers for there efforts on uss

I got no word to describe

Plant more flowers and trees make it beautiful and fresh

Every student has it's own problems must learn to understand them

Explain straight to the point

The institution is good enough I have nothing to suggest

Teaching skills to make the students understand properly

Thanks

NOT TO SPEAK OWN LANGUAGE/DIALECT IN COLLEGE CAMPUS. I strongly commented that speaking our own language or dialect would not improve our speaking skills, so the institute of this college to look after that or inform not to speak any other language or dialect none other than english in college campus. Because we in this college are majority by khasi and we know that speaking english would improve our speaking skills and many thing but sometimes even the teachers and security are having a conversation by own language and even asking none other khasi also in khasi language please look after this because we are students to learn new something and to gain knowledge everyday. If the students don't speak english then what he/she will learn and what will be the point of coming in the college. As a student in college we have to learn everything reading only the text book or listening only the lecture are not only the thing to learn in the college but most important is to learn everything while we are in college. TO INFORM/ NOTICE AS SOON AS POSSIBLE. Because sometimes we don't know the college is close/open and please be inform/notice all the coming up event or holiday through WhatsApp group or in the notice board.
THANK YOU 🙏

The teachers carry a huge responsibility, to make the classes to understanding

It quite good 😊👍

According to my experience in this college I would like some teachers and library staff particularly to be fair in treating students without discriminating them on the basis of their caste, tribe, colour, physical appearance (facial whether the students is handsome or less handsome vice versa, because we are only human, God make us beautiful in different ways)etc. Apart from this flaw the teaching process in this college is superb . I wish in the coming months, years etc this kind of experience or discrimination will not be entertain by any higher authorities , because I myself having experiencing this kind of discrimination, attitude was very pissed, angry and in shock. I would like to add about this teacher particularly she never come to college on time and when she was late her excuse is she would give homework of the course she haven't even started on whatapp informing us that she will come to class but never even step her foot on the class
Thank You for this opportunity, it really help us students in raising our voice against the I'll treatment we receive from teachers and staff.I hope this college will be better not only in education but also in respect to ane another as a human being.

Yess

I suggest to give/teach more with examples so it better understanding.

I think they need to communicate with each student individually and give chance to every student without students feeling embarass

Good explanation

In my observation i observed that the teaching process is mostly very good and understandable .

- 1.Make teaching a two way interaction
- 2.Try to reach every student and ask their doubt....if possible

Improvement is needed in digital learning

Do what you are destined to do

The teaching was good but substitute teachers are not good.

Ain't got much to say but the new manipuri or naga teacher who be taking sociology he's good like really good...we need more teachers like him...☐☐

All the teachers are Good but some teacher are little bit faster so they need to be a bit slow so that we can understand more clearly

Try to reach every student and ask for their doubt and advice student for their careers academic opportunities .

- 1:Free educational schemes for students with excellent marks,
- 2:jobs placement for merits list students ,3:installments fees for students with low financial support
- 4:strict rules related to studies and homeworks
- 5:providing extra courses which is compulsory for students to be completed and taking parts in educational excursion.

Especially for the honors paper : the teachers must first provide the material in the form of pdf to get it first print and then use it in the class for explanation to cover the syllabus on time and study the question paper before hand 🙌

For me It's good

Some teachers need to teach in a way that interests the students instead of just rushing with the syllabus, keeping that aside all teachers are very sweet and kind 😊

Make teaching a two way interaction

Nothing but they are good at teaching
